

## PRESS RELEASE – September 2009

**Maupin House Publishing is proud to announce that the *Learning through Writing Series* is a winner of the *Learning*® Magazine 2010 Teachers' Choice<sup>SM</sup> Award for the Classroom!**

The Teachers' Choice Awards are one of the most recognized and prestigious awards in the educational market. Winners are chosen by a panel of teachers across the country that evaluates each product in the classroom. Products are evaluated on quality, instructional value, ease of use, and innovation. Only those products that meet teachers' stringent standards are chosen to receive a Teachers' Choice Award.

With the *Learning through Writing Series*, teachers of grades three, four, and five can check students' content-area knowledge, critical thinking, and writing skills at the same time!

Each of the three books contains fun, authentic writing activities for language arts, math, science, social studies, and health/nutrition and takes students through the entire writing process, from brainstorming to publishing, while letting imaginations soar. This series includes one grade-level book each for third, fourth, and fifth grade, offering teachers the flexibility to pick from a variety of activities or choose only the grade-level book they need.

Each ready-to-go activity

- includes lesson plans, extensions, rubrics, student worksheets, and examples
- clearly lists objectives, materials and teacher preparation needed, and what prior knowledge and skills are being targeted
- is easily differentiated to meet students' needs
- can be used on its own, with other content-area activities, or as class time allows
- connects to national content-area and writing standards
- reflects grade-appropriate language and writing skills

### About the Author

Kathleen Kopp is a teacher on special assignment at Forest Ridge Elementary in Citrus County, Florida. She has nearly 20 years of teaching experience for first through fifth grades and has written several professional books on content-area learning and technology. Her *Learning through Writing Series* won a 2009 Distinguished Achievement Award from the Association of Educational Publishers.
