

PRESS RELEASE – September 2008

Use writing to teach the content areas to Grades 3, 4, and 5!

Maupin House Publishing announces the release of *Learning Through Writing: Authentic Writing Activities for the Content Areas*. With this series for grades three, four, and five, teachers can check students' content-area knowledge, critical thinking, and writing skills at the same time!

The books contain fun, authentic writing activities for language arts, math, science, social studies, and health/nutrition and take students through the entire writing process, from brainstorming to publishing, while letting imaginations soar. This series includes one grade-level book each for third, fourth, and fifth grade, offering teachers the flexibility to pick from a variety of activities or choose only the grade-level book they need.

Each ready-to-go activity

- includes lesson plans, extensions, rubrics, student worksheets, and examples
- clearly lists objectives, materials and teacher preparation needed, and what prior knowledge and skills are being targeted
- is easily differentiated to meet students' needs
- can be used on its own, with other content-area activities, or as class time allows
- connects to national content-area and writing standards
- reflects grade-appropriate language and writing skills

Books can be sold separately or as a series. For a specific grade-level review copy of *Learning Through Writing*, please contact Laura Lok at llok@maupinhouse.com.

About the Author

Kathleen Kopp is an elementary school curriculum specialist in Citrus County, Florida. She has nearly 20 years of teaching experience for first through fifth grades and has written several professional books on content-area learning and technology.
